

What Is Claimed Is:

1. A method of creating a graphical depiction of a person's life, comprising the steps of:

 providing a first plurality of puzzle pieces that represent different events that may occur in a person's life; and

 joining puzzle pieces together that correspond to events that have occurred in a person's life to create a puzzle assembly that is a graphical depiction of life events of that person.

2. The method according to Claim 1, further including the step of providing a second plurality of puzzle pieces that correspond to life principles.

3. The method according to Claim 2, further including the step of creating a puzzle framework with said second plurality of puzzle pieces.

4. The method according to Claim 3, wherein said puzzle assembly of said first plurality of puzzle

pieces is assembled within said puzzle framework of said second plurality of puzzle pieces.

5. A puzzle assembly, comprising:

 a plurality of corner puzzle pieces;

 a plurality of border puzzle pieces that interconnect said corner puzzle pieces; and

 a plurality of central puzzle pieces that are interconnectable with said border pieces and each other, wherein at least some of said central puzzle pieces depict different common life events.

6. The assembly according to Claim 5, wherein said plurality of central puzzle pieces are identical in configuration.

7. The assembly according to Claim 5, wherein at least some of said central puzzle pieces have blank spaces upon which dates of important events can be recorded.

8. The assembly according to Claim 5, wherein said border puzzle pieces depict different virtues and life principles.

9. The assembly according to Claim 5, wherein all of said central puzzle pieces have the same configuration.

10. The assembly according to Claim 5, wherein at least some of said central puzzle pieces have writing lines on a back surface upon which notes of important events can be recorded.

11. A method of assembling a jigsaw puzzle; providing a puzzle framework that defines an interior; providing puzzle pieces that correspond to different commonly occurring life events; adding one of said puzzle pieces that corresponds to a life event into said puzzle framework when that life event occurs.

12. The method according to Claim 11, wherein
said step of providing a puzzle framework includes
providing and assembling puzzle framework pieces
into said puzzle framework.

13. The method according to Claim 12, wherein
said puzzle framework pieces contains an indication
of a life principle.
